

## INDIANA FREE LIBRARY

Dear Friends,

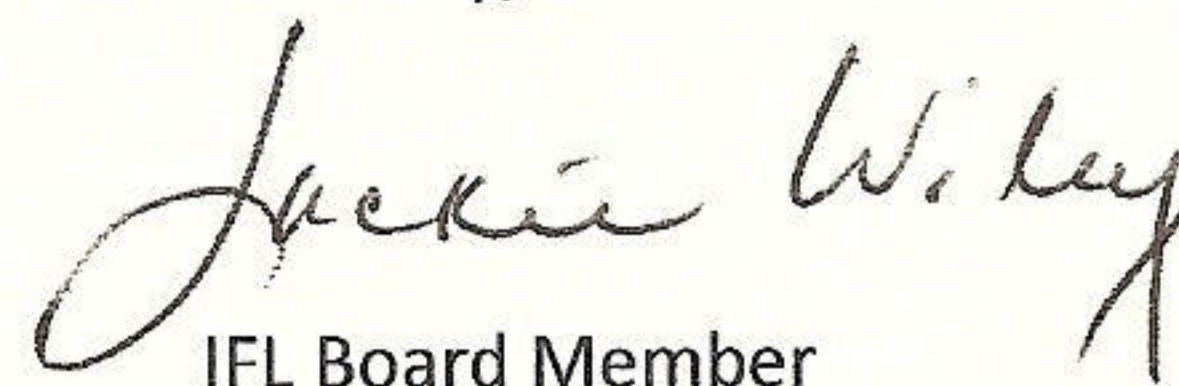

Indiana Free Library (IFL) ended 2010 with a flood of publicity and enormous community support. Spurred by numerous letters to the Indiana Gazette, approximately 150 people attended a Borough Council meeting to voice their concerns about our lease issues. As a result, we won a reprieve and a lease extension that will allow us to remain in our current location until the end of 2015. We have since assembled an Advisory Board of local business leaders, a realtor, an attorney, and government representatives to help guide us in securing a permanent home. While the shouting may be over for now, we have a lot of work to do to maintain quality services to our patrons and to ensure the future stability of Indiana Library.

As we plan for the future, we have immediate pressing needs. Technology must be maintained, collections must be kept fresh and vibrant, and well-attended programs must continue without interruption. IFL's 2010 programs and services have touched every level of our community:

- The Summer Reading Program kicked off at Mack Park with over 500 children and adults attending.
- Two Early Learning Stations for children and additional computers for adults were purchased.
- Monday Brown Bag Concerts were added to our mid-day programs.
- New afternoon and evening Book Clubs and discussion groups were established.

We would like to do even more. The recently completed community survey will help to direct our future decisions while we continue to address our patrons' current needs. Much of what we have achieved – and what we may accomplish in the future – is a direct result of your generosity. We cannot make this journey alone; we need your support. Please help us maintain the momentum so that together, we will continue to enrich the lives of our community.

Sincerely,

  
IFL Board Member
